BEST PRACTICE I

TITLE: Career Advisory and Augmentation Service (CAAS)

Objective

Avanthi Institute of Engineering & Technology has a dedicated Career Guidance, Training & Placement Cell. The main objective of which is to groom the students to excel in the competitive world and to enhance their overall technical skills and maintain a good placement record. This cell continuously strives to help students in pursuing their career goals by acquiring employment-seeking skills and ultimately to attain desired employment. This is accomplished through building a strong partnership amongst students, alumni, faculty-members and industries. The Career Advisory and Augmentation Service (CAAS) is a division running under Career Guidance, Training & Placement Cell that boosts the technical skill, communication assessment, language skills of the students. CAAS organizes programs and sessions to brush up the logical, analytical and verbal skills of the students and trains them to secure placements in the best industries. Career guidance begins with an assessment of an individual’s skills, interests, and strengths. This information is then used to identify potential career paths that may be a good fit for the students.

Context

As the global economy becomes increasingly competitive, it is more important than ever for students to make informed decisions about their careers especially with the rise of overseas education opportunities. While studying abroad provides students with a wealth of opportunities to learn, to grow, and explore new career paths, it can also be a confusing and overwhelming experience, especially for students who are unsure about what they want to do with their lives. Career guidance can help students understand their strengths, weaknesses, and interests, and provide them with a clear picture of the career paths available to them. Our management being not new to this aspect of success, started focusing on the training the students for placement from the first year onwards. Within a short period, a Career Guidance & Placement Cell has been established with an experienced Placement Officer and an active and experienced team. Since then the placement process of the college has taken a step towards successful placement of students. The cell provides information about various occupations, such as job requirements, growth potential, industry interactions, skills needed, and earning potential.

www.aietta.ac.in, principal@aietta.ac.in

The Practice

The Placement and Career Guidance cell co-ordinates with other departments to deal with both technical and non technical practices. The technical team concentrates on recent trends in the automated world of various digital platforms along with the focus on core areas.. The domains in the technical aspects are based on different programming languages as well as testing tools in various departments of information technology. Some of the languages are Problem Solving Using C, Python Programming , Java Script and Automation Testing Tools like SQL, Testimonials, etc. The non technical team deals with the proper projection of knowledge inside the ignited minds; the team supports the students in improving their personal and mental capabilities and build confidence to enable them to survive in the competitive world. The focus is on improving the Soft skills of the students by laying emphasis on their vocabulary, error detection, resume building, participation in Group discussions, JAM sessions etc. The team also deals in improving the Arithmetic ability of the students like Aptitude, Reasoning and Logical thinking.

The students of our college are provided with guidance and training right from the first year to make them future ready. The Orientation sessions are conducted as a part of curriculum by the external industry experts along with training professionals of the college. The sessions are conducted every year for continuously fifteen days along with regular class work for all Engineering disciplines. Students have the feasibility to chose their passionate path and combine their academic knowledge with the training and guidance provided by the Career Guidance and Placement Cell as the prerequisite for their successful career.

PROBLEMS ENCOUNTERED:

- Communication is the first challenge encountered by the students coming from rural background which has to be corrected and honed as it is vital for any placements.
- In spite of being good at academics, some students are unaware of the latest technologies and practices used by the present society.
- There is a lack of awareness and information in both parents and students about the various career options available to them

RESOURCES REQUIRED:

- Hands on practice along with shaping the students on the basis of job description which can be done before the day of campus recruitment drive.
- Establishment of full-fledged Career Counseling team with sophisticated labs and classrooms and with more number of experienced trainers.

Resource persons	: Mr.K.ChandraSekhar, Aptitude Trainer, omega c2c solutions Mr.M.R.Sundar, Aptitude Trainer, omega c2c solutions Mr.Hemanth, Aptitude Trainer, omega c2c solutions Mrs.N.Rajini, Aptitude Trainer, omega c2c solutions Mr.V.Vivekanand, Aptitude Trainer, omega c2c solutions
No. of participants	: 523

The institute has organized a training session on Aptitude skills for IV B.Tech students of Civil, EEE, Mech, ECE and CSE. The training was delivered by Omega C2C Career solutions. The training was very useful as it made the students to critically evaluate various real-life situations by resorting to an analysis of key issues and factors. Aptitude skills allow students to develop qualities such as enhanced perception, understanding and solving complicated questions, empathy and logical reasoning.

This program is intended to educate the students about the importance of Aptitude skills in their career and train them accordingly. They have done a wonderful job as the training was well organized which improved the students Mathematical, Analytical and Logical skills by providing them with various short tricks to solve them.

The training covered the following topics:

Mixture & Allegation, Bankers Discount, Chain Rule Decimal Fractions, Logarithms, Percentage Problems on Ages, Profit & Loss, Simple Interest, Time & Distance, Volume and Surface Area Progression Surds & Indices, Partnerships, Compound Interest Pipes & Cisterns

Outcome: Aptitude testing helps to demonstrate various principles involved in solving mathematical problems and thereby reducing the time taken for performing job functions. It can also help identify an individual's level of intelligence, which can help them learn more effectively and achieve their goals. The training program emphasized on that and also conducted tests so that the students can identify and improve their level of solving aptitude problems.

The college has organized a workshop for the First year Engineering students on the "Importance of English Communication". The training is aimed to encourage young Engineers of the college to learn and explore their spoken English skills and to enhance their career opportunities. Campus placements are one of the biggest events in every student's life. It's easy to see just how important English is around the world. Many international businesses conduct meetings in English; universities teach courses in English and, around the world, tourists and travelers use English as a common language. Good English is not only classy but a possibility to continue studies and specializations in the best universities in the world.

Objectives:

- To increase morale of students in English language and remove fear of speaking in English.
- Personality Enhancement.
- To boost communication in English among students and faculties.
- To underline the importance of Listening, Speaking, Reading and Writing skills in English.

Outcome:

Students will be able to-

- Understand the importance English language in effective communication
- Understand the importance of Soft skills for Career development.

No. of participants	:	323 students

Emphasis laid on thrust areas:

1. Professional writing
2. Presentation skills

Topic: Resume Writing

Outcome:

English plays a utilitarian role in the career development of students. As English language is the universal language, every professional should acquaint themselves with the necessary English language skills to make their own place in the ever changing competitive world. Keeping this in mind, the college organized a training programme on Resume Preparation for the students.

Mrs.Roopa Devi, the trainer emphasized the need for effective resume for companies. His training covered the following areas in resume writing:

- Definition of Resume and Curriculum Vitae
- Types of resumes:
 - Chronological Resume
 - Functional Resume
 - Combinational Resume
 - Targeted Resume
- Stages and Procedure in Resume Writing
- Tips for effective resume preparation

The training program was an effective one and the trainer has trained students and made them to draft their resumes. The session provided lot of inputs to the students and the various doubts

Name of the program	: Career Opportunities in Government Sector
Date	: 14/03/2019
Timings	: 10.00 AM -12.00 Noon
Resource person	: Mr.S.Venkataraman, Manager Grade I, Coir Board, MSME
No. of participants	: 216

A one day awareness program was organized for the students of IV B.Tech to gain knowledge on Career Opportunities in Government Sector on 14.3.2019 at the Seminar hall.

The objective of this talk is to introduce our Undergraduate students to the various opportunities in the Government sector. The Government sector offers the largest number of employment opportunities to final year students from all branches. In this context, an awareness is necessary for the proper preparation of the students so that we can make them employable in the Government sectors.

Mr. S.Venkataraman who has been in the Government sector for the past 20 years provided the students with an overview of the opportunities and the various courses they need to study in order to get employed in various government organizations. The learned speaker, Mr.Venkataraman a versatile personality and has held various distinguished positions in Government sector, guided and enlightened students about the opportunities available for Engineering students in various organizations. During his lecture, he exhorted the students the importance of Soft skills like communication, leadership, decision making, motivation, creativity, along with hard skills. The speaker explained the importance of institute-industry connect programme in informing the students about the changing demands of the industries. The students thanked the speaker for his expertise talk and in increasing their awareness about the various positions available for the students in Government organizations after the completion of their Engineering programmes.

No. of participants	: 358

The Career Guidance, Training & Placement Cell organized a program on "Guidance for Competitive Examinations" on 07/12/2018 in the Seminar Hall at 10 A.M. for the students of CIVIL,MECH&EEE and at 2 P.M. for ECE,CSE students. The resource person was Dr. S.N.V. Ganesh, Principal, Avanthi Institute of Engineering and Technology. He interacted with the students and motivated them to plan and prepare for exams like IES, GATE & PSU to explore the diverse career options after B.Tech. He also discussed techniques of memory management, personality development and time management.

The principal speaking on the occasion also suggested various books and web links to the students to get through exams like IES, GATE and the other prestigious PSUs like ONGC, NTPC, BHEL etc to secure top ranks. Also he guided the students about pursuing higher education in National and International Universities. The students raised many doubts regarding career options after Engineering, the best courses, etc which was clarified by the resource person. The program was informative and well-received by the students. A total of 358 students was present for the program.

REPORT

Name of the program	: Group Discussion
Date	: 29/11/2018
Timings	: 10.00A.M.-12.30P.M. & 2.30 PM -5.00PM
Resource Person	: Mrs. R. SubhaLakshmi
No of participants	: 264
Topic	: "Is Dependence on Computers a good thing"

The expectations of companies are changing from time to time and many companies adopted Group Discussion as a preliminary interview before final interview. The college organized this session for the students to enhance their knowledge and skills. The students actively participated in the Group discussion and showcased their knowledge and skills.

The discussion was successful and the students participated with more energy and interest. There were three groups in discussion, first who was in favor that it is a good thing, second against it and third one was neutral.

The aim of this group discussion was to enhance the confidence, communication skills, leadership quality, thinking capacity along with the awareness of the topic. The points discussed in the favour of the topic were like "faster work done, access to any information, connecting people all around the world etc" and the points against it were like "dependence on computers makes people lethargic, sitting in front of computers for a long time affects our health, causing some serious problems in case of any malfunction etc".

Overall the discussion witnessed positive impact and every one of them contributed good information and listened with utmost interest when other members were sharing their ideas. Speaking in the group discussion gradually brought everyone into mainstream of knowledge acquisition thereby boosting their self-confidence.
