BEST PRACTICE I

TITLE: Career Advisory and Augmentation Service (CAAS)

Objective

Avanthi Institute of Technology has a dedicated Career Guidance, Training & Placement Cell. The main objective of which is to groom the students to excel in the competitive world and to enhance their overall technical skills and maintain good placement record. This cell continuously strives to help students in pursuing their career goals by acquiring employment-seeking skills and ultimately to attain desired employment. This is accomplished through building a strong partnership amongst students, alumni, faculty-members and industries. The Career Advisory and Augmentation Service (CAAS) is a division running under Career Guidance, Training & Placement Cell that boosts the technical skill, communication assessment, language skills of the students. CAAS organizes programs and sessions to brush up the logical, analytical and verbal skills of the students and train them to secure placements in the best industries. Career guidance begins with an assessment of an individual's skills, interests, and strengths. This information is then used to identify potential career paths that may be a good fit for the students.

Context

As the global economy becomes increasingly competitive, it is more important than ever for students to make informed decisions about their careers specially with the rise of overseas education opportunities. While studying abroad provides students with a wealth of opportunities to learn, to grow, and explore new career paths, it can also be a confusing and overwhelming experience, especially for students who are unsure about what they want to do with their lives. Career guidance can help students understand their strengths, weaknesses, and interests, and provide them with a clearer picture of the career paths available to them. Our management being not new to this aspect of success started focusing on the training of the students for placement from the first year onwards. Within a short period, a Career Guidance & Placement Cell has been established with an experienced Placement Officer and an active team. Since then the placement process of the college has taken a step towards successful placement of students. They provide information about various occupations, such as job requirements, growth potential, industry interactions, skills needed, and earning potential.

The Practice

The Placement and Career Guidance cell consists of distinguished departments which will be

dealing with both technical and non technical practices. The technical team will be dealing with recent trends in the automated world of various digital platforms along with the focus on core areas.. The domains in the technical aspects are based on different programming languages as well as testing tools in various departments of information technology. Some of the languages are Problem solving using C, Python Programming , Java Script and Automation Testing Tools like SQL, testimonials etc. The non technical team will be dealing with the proper projection of knowledge inside the ignited minds; the team will be supporting the students in improving their personal and mental capabilities and build confidence to enable them to survive in the competitive world. Improving Soft skills of the students by focusing on their vocabulary, error detection, resume building, participation in Group discussions, JAM sessions etc.. The team also deals in improving the Arithmetic ability of the students like Aptitude, reasoning and Logical thinking.

The students of our college are provided with guidance and training right from the first year to make them future ready. The Orientation sessions are conducted as a part of curriculum by the external industry experts along with training professionals of the college. The sessions are conducted every year for a continuous fifteen days along with regular class work for all Engineering disciplines. Students have the feasibility to chose their passionate path and combine their academic knowledge with the training and guidance provided by the Career Guidance and Placement Cell as the prerequisite for their successful career.

PROBLEMS ENCOUNTERED:

- Communication is the first challenge encountered by the students coming from rural background which has to be overcome as it is vital for any placement.
- In spite of being good at academics, some students are unaware of the latest technologies and practices used by the present society.
- There is a lack of awareness and information in both parents and students about the various career options available to them

RESOURCES REQUIRED:

- Hands on practice along with shaping the students on the basis of job description which can be done before the day of campus recruitment drive.
- Establishment of full fledged Career Counseling team with dedicated labs and classrooms and more number of expert trainers.

REPORT

Name of the program	:	Aptitude Training
Date	:	08-07-2019 to 12-07-2019
Timings	:	9.30 AM-12.00 PM
Resource persons	:	Mr.P.Bhanu Teja, Mr. L. Mani Deva, Face Training Academy
No. of participants	:	395

A training session on Aptitude was conducted for IV B.tech students of Civil, EEE, Mech, ECE and CSE. This training was very useful as students could acquire knowledge to solve different quantability questions in the competitive examinations. Aptitude skills allow students to develop qualities such as enhanced perception, understanding and solving complicated questions, empathy and logical reasoning.

The program is intended to educate the students about the importance of Aptitude skills in their career and train them accordingly. Mr.P. Bhanu Teja, & Mr.L.Mani Deva, Face Training Academy has done a wonderful job in order to improve the Mathematical, Analytical and Logical skills of the students by providing them various short tricks to solve them.

Syllabus:

Mixture & Allegation, Bankers Discount, Chain Rule Decimal Fractions, Logarithms, Percentage Problems on Ages, Profit & Loss, Simple Interest, Time & Distance, Volume and Surface Area Progression Surds & Indices, Partnerships, Compound Interest Pipes & Cisterns

Outcome: Aptitude testing can help identify an individual's vocational strengths and weaknesses in specific areas which can help them succeed in a particular job or career. It can also help identify an individual's level of intelligence, which can help them learn more effectively and achieve their goals. The training program emphasized on that and also conducted tests so that the students can identify and improve their level of solving aptitude problems.

The college has organized a workshop for the newly admitted first year engineering students on "Importance of English Communication". The training is aimed to encourage young Engineers of the college to learn and explore the spoken English skills to enhance their career opportunities. Campus placements are one of the biggest events in every student's life. It's easy to see just how important English is around the world. Many international businesses conduct meetings in English; universities teach courses in English and, around the world, tourists and travelers use English as a common language. Good English is not only classy but a possibility to continue studies and specializations in the best universities in the world.

Objectives:

- To increase morale of students in English language and remove fear of speaking in English.
- Personality Enhancement.
- To boost communication in English among students and faculties.
- To underline the importance of Listening, Speaking, Reading and Writing skills in English.

Outcome : Students will be able to-

- Understand the importance English language in effective communication
- Understand the importance of Soft skills for Career development.

No. of participants	:	75

Emphasis laid on thrust areas:

1. Professional writing
2. Presentation skills

Topic: Resume Writing

Outcome:

English plays a utilitarian role in the career development of students. As English language is the universal language, every professional should acquaint themselves with the necessary English language skills to make their own place in the ever changing competitive world. Keeping this in mind the college organized a training programme for the students in Resume Preparation.

Dr. Ranjit Kumar, an trainer emphasized the need for effective resume for companies. His training covered the following areas in resume writing:

- Definition of Resume and Curriculum Vitae
- Types of resumes:
 - Chronological Resume
 - Functional Resume
 - Combinational Resume
 - Targeted Resume
- Stages and Procedure in Resume Writing
- Tips for effective resume preparation

REPORT

Name of the program	:	Elocution Competition
Date	:	27/07/2019
Timings	:	9.30 AM to 12 PM
Event Co-ordinator	:	Mrs.T. Santoshi Bhavani, Assistant Professor, ECE, AIET.
No of participants	:	30

Purpose

The aim of the competition was to promote the use of Hindi, our national language, and to encourage students to become proficient in it. The competition provided a platform for students to showcase their communication skills and improve their public speaking abilities.

Competition format

The competition was conducted in two rounds. The first round was a prepared speech round, where participants had to deliver a speech on a given topic in Hindi. The participants were given two minutes to speak on the topic. The topics were related to social issues, current affairs, and patriotism.

The second round was an impromptu speech round, where participants had to speak on a topic that was given to them on the spot. The topics were related to the significance of Hindi, Indian culture, and national integration.

Judging criteria

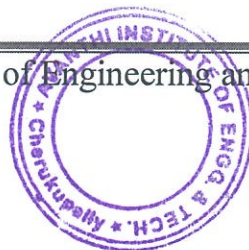

The participants were judged based on their content, delivery, language, and overall presentation. The judges evaluated the participants based on their pronunciation, intonation, clarity, and coherence. The judges also assessed the participants' ability to engage the audience and hold their attention.

Conclusion

The elocution competition on Hindi, our national language, was a huge success. The participants displayed excellent communication skills and showcased their love for the language and culture. The competition provided a platform for students to improve their public speaking abilities and promote the use of Hindi as a means of communication. The event was a great way to celebrate the rich cultural heritage of India, and we look forward to more such events in the future.

REPORT

Name of the program	:	Technical Quiz Competition
Date	:	13/09/2019
Timings	:	10.30 A.M
Organizing committee	:	Mr.M.Raghava Rao, Mr. Sunil Kumar Jenna,MECH,AIET
No. of participants	:	85

About the event:

The department of Mechanical Engineering hosted a technical quiz as a part of Engineer's Day celebrations. It is a team activity and more than 20 teams participated with a total of 85 participations. A quiz is a game which can also be a mind sport wherein the players, either as individuals or in teams attempt to answer questions posed to them correctly, in order to win a prize. The quiz was designed in an interesting way to study and help in the process of improving one's general knowledge and skills. Students need to form teams while participating in quizzes. These types of competitions provide adequate opportunities for the students to hone multiple skills. The adjudicators evaluated the students in the competitions and the best two teams were selected for the first and second prize. At the end the principal congratulated the students for participating in such competitions and showcasing their talents. The prizes were also presented to the winners.

Name of the program	: Session on Career Opportunities in IT
Date	: 23/01/2020
Timings	: 10.00 AM -12.00 Noon
Resource person	: Mr. K. Viswanath, Senior Technical Specialist, IBM
No. of participants	: 424

The objective of this talk is to introduce our Undergraduate students to the various opportunities in the IT industry. The IT industry offers the largest number of employment opportunities to final year students from all branches. In this context, awareness is necessary for the proper preparation of the students so that we can make them employable in the IT Industry. Mr. K. Viswanth who has been in the IT industry for the past 20 years provided the students with an overview of the opportunities and the various courses they need to study in order to get employed in the IT sector. The learned speaker, Mr.Viswanath has worked in various roles as Engineer, Building Teams across domains in IT, in Leadership & Management and the students got a very good opportunity to interact with him and collect information men and machinery of the IT Industry. During his lecture he exhorted the students the importance of Soft skills like communication, leadership, decision making, motivation, creativity, along with Hard skills. This Academia-Industry connect programmes are very useful for the students to keep them informed about the changing needs of the industry from time to time.

The Career Guidance, Training & Placement Cell organized a program on "Career Guidance for Competitive Examinations" on 27th September, 2019 in Seminar Hall-1. The resource person was Dr.A.Chandra Sekhar, Director, Avanthi Institute of Engineering and Technology. He interacted with the students and motivated them to plan and prepare for exams like IES, GATE & PSU to explore the diverse career options after B.Tech. He also discussed techniques of memory management, personality development and time management. He further suggested various books and web links to the students to get through exams like IES, GATE and the other prestigious PSUs like ONGC, NTPC, BHEL etc. to secure top ranks. The students raised many doubts regarding career options after engineering, best courses, etc which was clarified by the resource person. The programme was informative and well-received by the students.

A program on **The Role of Positive Attitude for Success** is conducted by the college on 18/03/2020 for the II year B.Tech. students. The keynote speaker was Mr.K. Sandeep Mehtha, who is a Recruitment Executive in Diksha Technologies. He gave a detailed lecture about the importance of the Positive Attitude in the candidates appearing for interviews and the role of it in the recruitment process. Mr. Sandeep spoke about the common mistakes one makes while answering questions during the interviews and explained about the ideal way of responding, maintaining a positive attitude throughout the interview. In his lecture, he highlighted the importance of staying calm and composed in a stressed situation, and relevance of yoga and meditation. He underlined the importance of positive attitude for staying healthy and stress free life. He also narrated various life examples to boost the confidence levels of the students on the topic of presentation.

The students participated actively and got their doubts clarified by the resource person in the interaction session held at the end of the program. All in all, the session was an enlightening one and the resource person inspired every one with his thought provoking lecture.

Name of the program	: Engineering Education amid a Global pandemic
Date	: 10/05/2020
Timings	: 10:00 A.M. to 12:15 P.M.
Resource person	: Mrs. M. Indira, Assistant professor, BS&H dept.
No. of participants	: 73

The virtual motivational lecture on "Engineering Education Amid Global Pandemic" was organized on 10/05/2020

The unexpected turn of events led by the outbreak of the COVID-19 pandemic, forced educators around the world, regardless of their stance on online education, their familiarity with it and their level of preparedness, to transition into a completely online system of education. To better understand the impact of digital teaching in Engineering study programs, students, but also the teachers involved in such programs, was conducted.

The session focused on three main aspects:

- the motivation of students and teachers alike,
- the use of digital teaching tools and methods and
- the assessments in a digital environment.

The following steps were suggested :

- The use of the live sessions, which are best for answering questions as well as clarifying misconceptions and doubts, Interactive sessions also prevent common screen fatigue.
- Asking the students to turn on their camera creates a more in-class feeling for the teachers.
- Proper teaching equipment and hardware on both sides must be ensured. Insufficient sound quality or choppy audio transmission during live sessions can be frustrating and annoying.

The resource person advised the students to take up on line certification courses like coursera, NPTEL etc. The students interacted with the speaker and got their doubts clarified.

Outcome of CAAS:

The various programs and training sessions like Aptitude skills training, Communicative English, Soft-skills training, Career-orientation sessions and program on higher education conducted for students have yielded positive outcomes. There is a marked improvement in the understanding and skills of the students after attending the sessions. Most of the students from all years of B.Tech have actively participated and benefited from the sessions conducted by CAAS.

I. Placements:

The initiatives taken towards placements have shown noticeable increase in the number of students placed, offers, companies visited, internships and pay packages. Below are the details.
